**All 4H and FFA exhibitors' goats must have a Certificate of Veterinary Inspection meeting the requirements set out in this section to participate in the open show.**

2. **Identification Requirements for All Sexually Intact Goats.** All sexually intact goats, commercial does, registered percentage and full blood Boer Goats, must be identified with an Individual Scrapie Flock of Origin identification tag or by a readable, official tattoo registered with the USDA. The complete ear tag number and/or complete tattoo must be listed on the Certificate of Veterinary Inspection. To register your herd tattoo prefix, call 1-866-USDA-TAG. If tattoos are used instead of scrapie tags, complete numbers and/or letters from both ears must be listed on the Certificate of Veterinary Inspection. This Scrapie Tag number or registry tattoo (both right and left ear numbers and letters) must be listed on the Certificate of Veterinary Inspection. The ear tags must match the identification number on the Certificate of Veterinary Inspection. The Certificate of Veterinary Inspection must also include a statement certifying the herd's participation in the Scrapie Program and include the scrapie premise number.

**Tuberculosis:** All goats must either originate from a tuberculosis-free herd, showing date of last test and herd accreditation number; or originate from a negative herd, tested within twelve months prior to entry, showing date of herd test; or have a negative tuberculosis test applied within thirty days prior to entry. Goats less than six months of age must originate from a herd which has been whole-herd tested negative for tuberculosis within the past 12 months or must originate from an accredited tuberculosis-free herd (the date of the last test and accredited herd number must be listed on the certificate of veterinary inspection). All goats native to or originating from a county or region under quarantine for tuberculosis are not eligible for entry into Iowa.

Take the show date and count back to the birth date of the goat to determine the age and the class of the animal. For example, for a December 1 show, an animal with a January 1 birth date would be eleven (11) months old and would show in a kid class.

**10.
